Are You Tired, Nervous and Sleepless?

Nervousness and sleeplessness are usually due to the fact that the nerves are not fed on properly nourishing blood; they are *starved* nerves. Dr. Pierce's Golden Medical Discovery *makes pure, rich blood*, and thereby the nerves are properly nourished and all the organs of the body are run as smoothly as machinery which runs in oil. In this way you feel clean, strong and strenuous—you are good for a whole lot of physical or mental work. Best of all, the strength and increase in vitality and health are *lasting*.

The trouble with most tonics and medicines which have a large, booming sale for a short time, is that they are largely composed of alcohol holding the drugs in solution. This alcohol shrinks up the red blood corpuscles, and in the long run greatly injures the system. One may feel exhilarated and better for the time being, yet in the end weakened and with vitality decreased. Dr. Pierce's Golden Medical Discovery contains no alcohol. Every bottle of it bears upon its wrapper *The Badge of Honesty*, in a full list of all its several ingredients. For the druggist to offer you something he claims is "just as good" is to insult your intelligence.

Every ingredient entering into the world-famed "Golden Medical Discovery," has the unanimous approval and endorsement of the leading medical authorities of all the several schools of practice. No other medicine sold through druggists for like purposes has any such endorsement.

The "Golden Medical Discovery" not only produces all the good effects to be obtained from the use of Golden Seal root, in all stomach, liver and bowel troubles, as in dyspepsia, biliousness, constipation, ulceration of stomach and bowels and kindred ailments, but the Golden Seal root used in its compounding is greatly enhanced in its curative action by other ingredients such as Stone root, Black Cherrybark, Bloodroot, Mandrake root and chemically pure triple-refined glycerine.

"The Common Sense Medical Adviser," is sent free in paper covers on receipt of 21 one-cent stamps to pay the cost of mailing *only*. For 31 stamps the cloth-bound volume will be sent. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure constipation, biliousness and headache.

MEN ARE POWERLESS

To Fight Against Disease Unless They Strike at the Underlying Cause.

To treat Dandruff, and Falling Hair, with irritants or oils on which a parasitic germ will prosper, is like scooping water from the ocean to prevent the tide from rising.

You cannot accomplish a satisfactory cure without having a right understanding of the fundamental causes of the trouble.

You must kill the Dandruff Germ.

Newbro's Herpicide does this because it is specially made to do that very thing.

When the germ is removed, the hair has no choice but to resume healthy growth and beauty.

"Destroy the cause, you remove the effect."

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Adulteration of Food.

In the well of the House of Representatives just before the Speaker's chair stood two tables yesterday covered with a mass of cans, bottles and packages of breakfast foods, and all other sorts and conditions of articles sold in the grocery stores. Behind them, like the "demonstrator" of some new patent food article in a department store, stood Representative Mann, of Chicago, who is in charge of the pure food bill, which was taken up by the House of Representatives yesterday afternoon.

He picked up a bottle of cherries, those lucious, red, delicious cherries, such as you get in your cocktail before dinner. He held them up to the admiring gaze of the crowded House of Representatives. "How beautiful they are," he said, and the members murmured assent. "And yet these beautiful, red cherries were all picked green, so that they might be hard, and then they were treated with some sharp acid to take the green out of them. And then they were bathed for hours in analine dye to give them this beautiful red color. Look."

Mr. Mann unscrewed the top of the bottle and took up from the table a piece of white cloth. He dipped it into the juice that floated on top of the cherries, and then held the saturated cloth up to the House. It was dyed a horrid red. The House groaned.

Mr. Gaines, of Tennessee, radiantly pure in a suit of white linen that matched his hair, dashed down the aisle to where Mr. Mann stood still holding aloft the horrid piece of cloth. "Is there no punishment for the miscreants who do these hideous things?" he demanded.

"The bill contains rigid provisions preventing such adulterations," said Mr. Mann, consolingly, "and it provides drastic punishment for the men who do these things."

Picking up another bottle that looked like the sweetest honey that ever came out of the hive of bees that had sipped the most lucious clover in all the world, Mr. Mann continued his demonstration. "It is the most beautiful honey in the world, isn't it?" he said. "Look, here you can actually see the bee that was drowned in its own sweet product." He pointed to a bee that floated in the honey as he shook the bottle. "How it takes us back to the days on the farm! And yet, gentlemen, this honey never got nearer to a farm than may have been the glucose factory where this alleged honey was made. Where they got the bee I have no idea."

Next he picked up a bottle of olive oil. For a wonder it was the real stuff; then he showed by comparison another bottle of oil that looked just as beautiful as the first. "This second bottle, however, gentleman," he said, "is cotton-seed oil. Now, as a matter of fact, cotton-seed oil, is in many respects as good as olive oil, and if the dealers sold it as such, instead of labeling it 'olive oil' there would be no harm done. Indeed, to show you what an excellent imitation of olive oil this cotton-seed oil makes I will say that such an aristocratic selection of epicures as the Union League Club of Philadelphia have been using this cotton-seed oil for years."

After explaining some other tricks of the trade Mr. Mann picked up what is known as a three-pound can of tomatoes. He placed it on the scales and showed that it weighed about two pounds nine ounces. "This can is sold everywhere as a three-pound can," he said. Here is another three-pound can," and he placed a second can of tomatoes in the other pan of the scales. It weighed only two pounds five ounces, being even lighter than its fraudulent companion.

Mr. Mann had spoken an hour, and was about to desist because the hour of adjournment had come, but members all over the House begged him to continue. He read to the House some of the advertisements of men, who make it their business to supply adulterance to dishonest grocers. One firm offered to sell what is called its "No. 3 filler" to grocers whereby they could make their own pepper at home by mixing this "filler" with cornmeal. This filler cost $20 a ton in five-ton lots. "And you can judge from the fact that it is sold only in five-ton lots, the amount of business these fellows do in selling this stuff," said Mr. Mann. "They have another filler, which costs $30 a ton, which you add to cornmeal to make the finest ground cinnamon or cloves or allspice." He picked up a package and poured out a sample of the filler. It was nothing better than ground peanut shells, properly colored and prepared. "The pepper berry itself is copied so closely that no one can tell it from the original."

"What is the imitation made of?" asked one member.

"Tapioca, colored with lampback," answered Mr. Mann. Then he took up the question of the mixed Mocha and the Java coffee, which every housewife flatters herself she is getting at the grocery stores because of the advertisements.

The many imitations of DeWitt's Witch Hazel Salve that are now before the public prove it the best. Ask for DeWitt's. Good for burns, scalds, chafed skin, eczema, tetter, cuts, bruises, boils and piles. Sold by W. F. Creighton & Co., 401 King street.

A HEALTHY OLD AGE

OFTEN THE BEST PART OF LIFE

Help for Women Passing Through Change of Life

Providence has allotted us each at least seventy years in which to fulfill our mission in life, and it is generally our own fault if we die prematurely.

Nervous exhaustion invites disease. This statement is the positive truth.

When everything becomes a burden and you cannot walk a few blocks without excessive fatigue, and you break out into perspiration easily, and your face flushes, and you grow excited and shaky at the least provocation, and you cannot bear to be crossed in anything, you are in danger; your nerves have given out; you need building up at once! To build up woman's nervous system and during the period of change of life we know of no better medicine than Lydia E. Pinkham's Vegetable Compound. Here is an illustration. Mrs. Mary L. Koehne, 371 Garfield Avenue, Chicago, Ill., writes: "I have used Lydia E. Pinkham's Vegetable Compound for years in my family and it never disappoints; so when I felt that I was nearing the change of life I commenced treatment with it. I took in all about six bottles and it did me a great deal of good. It stopped my dizzy spells, pains in my back and the headaches with which I had suffered for months before taking the Compound. I feel that if it had not been for this great medicine for women that I should not have been alive to-day. It is splendid for women, old or young, and will surely cure all female disorders."

Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, of Lynn, Mass., invites all sick and ailing women to write her for advice. Her great experience is at their service, free of cost.

"You can read advertisements everywhere offering to sell a fine mixture of Mocha and Java coffee for 22 cents a pound. Heaven only knows how many million of pounds of this alleged combination are sold every year. And yet the figures of the custom-houses show that while we import more than a billion pounds of coffee every year, there are less than two million pounds of Mocha and less than ten million pounds of Java imported. The alleged Mocha and Java combination sold at the prices that I have quoted are only Brazilian coffee, when they are coffee at all, and very often they are chicory or bread or even sawdust.

Mr. Mann went on to say that the committee had been almost overwhelmed with suggestions of all sorts in the way of proposed amendments. "I his morning, for instance," he said, "we received from a dozen members from different parts of the country an amendment that, curiously enough, was identical in words in each case. We found that this amendment had been originally drawn up by a great New York provision concern whose business for years has been confined solely to importing hopelessly rotten eggs. These they treated with acid and then sold to the confectioner.

A Miraculous Cure.

The following statement, by H. M. Adams and wife, Henrietta, Pa., will interest parents and others. "A miraculous cure has taken place in our home. Our child had eczema 5 years and was pronounced incurable, when we read about Electric Bitters, and concluded to try it. Before the second bottle was all taken we noticed a change for the better, and after taking 7 bottles he was completely cured." It's the up-to-date blood medicine and body building tonic. AN ORDINANCE to provide for the granting by the City Council of Alexandria, to the person or corporation hereafter to be ascertained in the manner prescribed by law, of the right to furnish electricity for light, heat, power and any other general purpose to the City of Alexandria and inhabitants thereof, and to erect, construct and maintain the necessary poles and fixtures and to run wires on, over, under and along the streets, public alleys, bridges, parks and other public ways and places in the City of Alexandria, for the purpose of supplying electricity.

Be it ordained by the City Council of Alexandria, Virginia:

1. That ——, its successors and assigns, be and they are hereby granted the right to furnish electricity for light, heat, power and any other general purposes to the City or Alexandria, and the inhabitants thereof, for a period of thirty years, and for the purpose of furnishing and supplying electricity for light, heat, power, and other general purposes they are hereby granted the use of the streets, highways and other public ways and places of said City, and are authorized to erect, construct, and maintain the necessary poles, fixtures, and other essential apparatus, to construct and maintain conduits, and to run and maintain wires on, over, under and along the streets, public alleys, bridges, parks and other public ways and places in the City of Alexandria, in order to furnish and supply electricity for light, heat, power and other general purposes to the City or to the inhabitants thereof, upon the conditions, provisions and limitations hereinafter set forth, as well as under these set forth in such ordinances of the City of Alexandria, as may be applicable thereto, and as are not in conflict with this ordinance and the amendments heretofore made or which may be hereafter made to such ordinances.

2. Each route shall be first determined upon by the City Engineer before any poles are erected, and the Committee on Streets may require the said ——, its successors or assigns, to use and occupy the poles already erected by any person or corporation before the running of wires along such route, provided that the City Engineer first deliver to the said ——, its successors or assigns, permission in writing from the owners of such poles already erected, to run and maintain other wires thereon, at reasonable rates to be fixed by agreement or arbitration. All wires run and all work done in pursuance of this ordinance shall be done in a good workman like manner and of material suitable for the purpose, at the time the work is executed, and shall be approved as such by the City Engineer.

3. The rights and privileges hereby granted shall continue for thirty years unless sooner forfeited as herein provided for, and upon the termination or forfeiture of this grant the entire plant, as well as the property of said ——,its succesors or assigns, located in the streets, public alleys, or other public places in the city, shall become the property of the City Council of Alexandria, upon the payment to the said ——, its successors or assigns, by the City Council of Alexandria, of a fair cash valuation of said entire plant and property, but the said—— shall be entitled to no compensation by reason of the value of the franchise hereby granted. In the event of the City Council of Alexandria and the said——, its successor or assigns, being unable at least six months prior to the termination of this grant, or within thirty days after the forfeiture thereof, to agree upon a fair and just cash valuation of said plant and property, then and in that event, such valuation shall be determined by arbitrators, one to be appointed by the City Council of Alexandria, one by the said——, its successors or assigns, and the third (in case of disagreement by such arbitrators) by these two arbitrators, or, in the event of the the two so chosen being unable, within twenty days after the date of the appointment of whichever of the two was last appointed, to agree upon a valuation, or failing that to agree upon a third arbitrator, the third arbitrator shall be appointed, by the then Judge of the Sixteenth Judicial Circuit of the State of Virginia, and the three arbitrators so appointed, shall proceed to establish a fair cash valuation of said plant and propertys excluding the valne of or any compensation for the franchise hereby granted, and upon the payment of the amount so established and fixed to the said ——,its successors or assigns, by City Council of Alexandria, the said plant and property shall thereupon vest absolutely in the City Council of Alexandria, and any expense incurred for compensation for the three arbitrators so appointed, shall be borne by the said——, its successors or assigns, and the said City Council of Alexandria, equally.

4. The City Council of Alexandria expressly reserves the right to impose other reasonable regulations, conditions and requirements upon the said ——, its successors or assigns and to pass such other ordinances as may be necessary to secure efficiency of public service by said ——, its successors or assigns, at reasonable rates, and to compel the said ——,its successors or assigns, to maintain said plant and property of the said —— in good order throughout the term of this grant; and it is hereby expressly provided that for a failure to comply with any material provision of this ordinance or of any such regulation, condition, requirement or other ordinance, this ordinance may be declared forfeited by said City Council of Alexandria, and be repealed, and the franchise hereby granted be declared to be at an end, provided always that any such failure shall not have been made good by the said ——, its successors or assigns, within ninety days after written notification of such failure to said ——, its successors or assigns, provided always that any such failure resulting from the act of God, public enemy, strikes at home or abroad or from any other unavoidable accidents or events, shall not be deemed a ground for declaring the franchise, rights and privileges hereby granted repealed, forfeited or at an end.

And it is further provided that should the said ——, its successors or assigns, be compelled by virtue of any state or municipal law or ordinance to place its or their conductors or any portion or portions thereof under ground, that the City Council of Alexandria shall provide, at its own expense, the trench or trenches necessary for the burying of such conductors, said City Council bearing the entire expense and responsibility incident to the opening and closing of such trench or trenches and the proper relaying of the pavement thereby disturbed, and said ——, its successors or assigns, bearing the entire expense incident of the furnishing and placing within such trench or trenches or the underground conductors and conduits so required.

5. For failure to comply with any material requirement of this ordinance the said ——, its successors or assigns, shall be liable to a fine of not less than ten nor more than one hundred dollars for each offense, each day's failure to be a separate offense, said fine to be collected as other fines are collected and paid into the city treasury. The imposition of any fine under this section shall not prevent a forfeiture under the foregoing section.

6. That the said ——, its successors or assigns, in the equipment of the poles, wires, fixtures or other works will use such appliances as are best designed to prevent injury by electrolysis to the water and gas mains and pipes or other public improvements of the city, and will pay to the City Council all damages to gas mains and

pipes occasioned by electrolysis caused by the failure to use such appliances and will also indemnify and save harmless the City Council from all claims of damages occasioned to person or property growing out of injury from the failure to use such appliances. The said ——, its successors or assigns, agree and bind themselves to hold the City Council free and harmless from liability from any and all damages, except as herein otherwise expressly agreed, that may accrue to any person or persons or corporation or corporations on account of injury or damage to person or property growing out of the construction, improvement, maintenance, repair or operation of the works and fixtures hereby authorized, and whenever the city is liable therefore, and shall be sued for such damage either independently or jointly with the said ——, its successors or assigns, on account thereof, the said ——, its successors or assigns, upon notice to it or them by the City Council will, except in a case where it is herein agreed that the entire responsibility for any stated work shall lie on the City Council, defend the city in such suit, and in the event of a judgment being obtained against the City Council, either independently or jointly with the said ——, its successors or assigns, on account of acts or omissions of the said ——, its successors or assigns, then said ——, its successors or assigns, will pay such judgment with all costs, and hold the City Council harmless therefrom.

7. The said ——, its successors or assigns, shall have a telephone placed and kept in its or their central station and whenever it shall become necessary to have the current cut off the wires on any of its circuits during the progress of a fire, said ——, its successors or assigns, shall immediately, upon the receipt of a message from the Chief of the Fire Department, or his representative, have the current on such circuit cut off and allow it so to remain until notified by the said officer or his representative that the said current may be again turned on.

Should said ——, its successors or assigns, fail, at any time, to immediately obey any such message whenever given, it or they shall be liable to a fine of not less than ten dollars nor more than one hundred dollars for such failure.

8. The privileges hereby granted are given upon the following further conditions:

(a) That said ——, its successors or assigns, will, within six months from the date of approval by the Mayor of the city of Alexandria, the final ordinance granting the privileges herein contained, begin to construct the work hereby authorized, as herein agreed, and fully complete the same within twelve months after the approval of said ordinance.

(b) That said ——, its successors or assigns, will continue to push to completion such work as herein agreed, until said ——, its successors or assigns, shall be ready to furnish an adequate current for electric light, heat and power.

(c) That said ——, its successors or assigns, shall, before commencing work under the provisions of this ordinance, execute a bond with security to be approved by a majority of the Finance Committee of the City Council of Alexandria, in the penal sum of ten thousand dollars, conditioned upon the faithful construction and putting into operation, within the time prescribed, and for the proper maintenance and operation of the plant and works necessary to secure efficiency of public service, and to protect the City Council from damages arising from suits or otherwise, for which said——, its successors or assigns, are responsible.

Section 2. That upon the approval of this ordinance by the Mayor of the City of Alexandria, it shall be the duty of the Clerk of the City Council to cause to be advertised once a week for four successive weeks, in a newspaper published in the City of Alexandria, a draft of the ordinance contained in the foregoing section, and in addition, he shall, in such advertisement, invite bids for the franchise, privileges and rights proposed to be granted in the proposed ordinance, and also for the present electric plant of the city. Every bidder will be required to file with his bid a certified check for five hundred dollars, payable to the order of the City Council of Alexandria, which certified check will be returned to said bidder on the rejection of his bid, or, if his bid be accepted and the above franchise awarded him, said certified check will be returned on the delivery to the City Council of the bond mentioned in sub-section of Section C of section 8, above.

The bids are to be delivered to the presiding officer of the Common Council of the City of Alexandria, at the day and hour of the next regular session of said body in open session to be held next after such advertisement shall be completed, which bids, by said presiding officer, shall be then and there presented to the City Council, to be dealt with and acted on in the mode prescribed by law.

FRIDAY EVENING, JUNE 22, 1906.

IN HIS address at the annual commencement exercises of Cornell University at Ithaca, N. Y., yesterday, Dr. Schurmann said:

To get and to have is the motto not only of the market, but of the altar and of the hearth. The energy of the nations is pouring itself into production. We are coming to measure man—man with heart and mind and soul—in terms of mere acquisition and possession. A waning Christianity and a waxing Mammonism are the twin specters of our age The idle rich are an excresence in any properly organized community. And in a democratic republic, in which every man has a vote, be assured that the rights which convention grants to property will be swept away if the propertied classes become idle, luxurious, selfish, hard-hearted and indifferent to the struggles and toils of less fortunate fellow-citizens. The vice of the age is that men want wealth without undergoing that toil by which alone wealth is created. Among the rich and well-to-do business and professional classes "grafting" has been so common that the very idea of commercialism has become a byword and a reproach. Financiers, capitalists and corporations may be the most conspicuous sinners, but equally guilty is the merchant who cheats his customers or the lawyer who shows his client how to circumvent the laws or the scholar who glorifies his patron's success in business irrespective of the methods by which that success was achieved, or the preacher who transfigures the ruthless oppressor and robber of six days into the exemplary christian of the seventh. We are dealing with the virus of a universal infection. The whole nation needs a new baptism of the old virtue of honesty The love of money and the reckless pursuit of it is undermining the national character.

The above needs no comment. Sad facts which none can controvert are set forth in their true light.

JUDGING from dispatches from St. Petersburg the Russian Douma must be a veritable menagerie. Owing to the repeated demonstrations of the group of toil and the more radical of the constitutional democrats during the ministerial explanations in the lower house of Parliament yesterday afternoon the President of the House was compelled to close the session for an hour. Hisses and catcalls followed the ending of the minister's speech, and the interruption broke out into a tempest of disorder as M. Stolypin left the rostrum. The incident has added a new word to the Russian language, "pogromstchiek," meaning maker of pogroms, which radical members hurled at M. Stolypin in unending chorus during his second speech.

THE EXPOSE of adulterated foods made in the House of Representatives yesterday will be read with interest by all housekeepers. The time has come when but few articles put up in factories are pure, nearly everything offered for sale being more or less adulterated. In many cases the concoctions used in the preparation of edibles are deleterious to health. So-called preserves and canned fruits are justly regarded with suspicion, as well as prepared meats, fish, &c. The old-fashioned sugar-cured ham has long been a thing of the past, most of those sold not having been properly cured or smoked, but subjected to a solution which gives them a yellowish appearance. It is high time Congress was acting in this matter.

AT THE Interstate Commerce Commission hearing in Washington yesterday John B. Thayer, fourth vice-president of the Pennsylvania Railroad, asserted that railroads should confine themselve strictly to the transportation business and not own stock in coal companies. Mr. Thayer has told exactly what the railroads should do, which, however, turns out to be exactly what they do not do.

IT SEEMS a little hard for the layman to understand the objections of the packers to putting the date on the label. Now, as well says the Philadelphia North American, if they were asked to print the formula—but why dwell on such unpleasant things?

THE FAIRFAX HERALD entered upon its 25th year last week. Mr. S. R. Donohoe, who is the editor of the Herald, is a natural-born newspaper man, and the paper is consequently one of the best in the State, being replete with all the news as well as interesting matter of all kinds.

From Washington.

(Correspondence of the Alexandria Gazette.)

Washington, June 22.

Attorney General Moody, acting for the President, is preparing to drag the Standard Oil Company into court for violation of the Sherman anti-trust and the Elkins anti-rebate laws. It is expected that an official statement will be issued on the subject after the Cabinet meeting today. The contemplated action is said to be the result of the midnight Cabinet meeting on Wednesday in which the Attorney General, Secretaries Taft Root and Bonaparte, and Postmaster Cortelyou participated. It is known that secret agents of the Department of Justice and the bureau of corporations have been engaged in collecting evidence against the Rockefeller octopus for several months, and it is understood that both the Attorney General and the President believe that an absolutely conclusive case has been made against the corporation. It is likely that prosecutions will also be begun against the railroads that have been favoring the Standard Oil Company to the prejudice of independent concerns by granting rebates and other preferences as revealed in the report of Commissioner of Corporations Garfield. The administration's purpose in going after the Standard at this time is said to be due to recent efforts made by the oil-railroad crowd to put spokes in the railroad bill.

If the immigration bill comes up for consideration at this session, Representative Henry M. Goldfogle, of New York, will advocate and seek the adoption of an amendment providing that when it shall be established to the satisfaction of the immigration authorities of the Department of Commerce and Labor that an immigrant has departed from his country solely to avoid persecution as consequence of his religious or political belief, or that he has left his country because of persecution involving danger to life or limb because of religious belief, such refugee shall not be refused admission to this country because of want of means. Representative Goldfogle explained that this amendment is in substance the same as that adopted by the English parliament. "The awful conditions in Russia, are such" he said, "that America, the haven of the downtrodden and the oppressed, ought, as a matter of common humanity, make an exception in favor of the unfortunate victims of the Russian persecution and brutality who are fleeing from their country to avid slaughter and outrages of an unspeakable character."

The Executive Council of the American Federation of Labor adjourned its quarterly meeting here this afternoon without making public the political proclamation to the workingmen of America which was to have been issued today. The committee to draft the proclamation consisting of President Gompers, vice-President James Duncan and Treasurer John B. Lennon, has not yet finished its labors. When completed, the document will be submitted by mail to the various members of the council for their approval, before it is published.

Chief Wilkie of the secret service today received word from Cleton, Penn., of the arrest there of Burton and Mark Kent and Walter Bixby for making and passing counterfeit silver dollars. Chief Wilkie also received word of the arrest at Dallas Tex., of Charles R. Bowden and E. A. Gideon, who are charged with raising good dollar bills to bad fives, tens and twenties.

With the examination of witnesses today, principally with reference to the Erie Railroad, the Interstate Commerce Commission will close its work in the coal investigation until next fall. The inquiry into the relation of the railroads to the coal fields that ship bituminous coal to tidewater is now practically complete so far as the taking of testimony is concerned. Were Congress not to adjourn in a few days a report on this branch of the investigation would be made. This report will probably be ready for Congress when it reconvenes. The record is quite voluminous, carrying nearly 7,000 type-written pages.

Fifty-ninth Congress.

Washington, June 22.

SENATE.

The Senate today without objection adopted the following joint resolution:

"Resolved, That the people of the United States are horrified by the reports of the massacres of Hebrews in Russia, on account of their race and religion, and that those bereaved thereby have the hearty sympathy of the people of the United States."

It was offered by Mr. McLaurin.

When first read Mr. Lodge, a member of the committee on foreign relations, asked that it go over. Later, after examining the resolution, he withdrew his his objection and it was adopted.

When the Senate took up the sundry civil appropriation bill, Mr McCumber resumed his opposition to the provision appropriating $25,000 for the President's traveling expenses. He said he could not believe that the President who had been insisting so strenuously for equal privileges to all and special privileges to none in railway transportation, would hold that he himself should not be considered in its execution

Mr. McLaurin spoke of the President electioneering and referred to "the electioneering of William J. Bryan, when he is President." "Let every Senator divest himself of executive influence and vote against this amendment," he exclaimed.

Mr. Bacon, in opposing the provision, said that a period of unrest pervaded this and other countries. "There is nothing that so contributes to this feeling," he declared "as the constant visual evidence of the favoritism which is thrown about certain men, with their emblems of superiority."

Mr. Foraker expressed his fear that the provision was unconstitutional. He suggested that the provision be eliminated and the separate measure already acted upon by the House be passed.

Mr. Hale sought to have the House bill taken up and voted upon without debate.

Mr. Morgan objected, and began a lengthy assault upon the provision.

HOUSE.

Representative Gill, of Maryland, democrat, introduced a resolution in the House today calling on the President of the United States to transmit to the House, what official information he may have or secure concerning the recent massacre of Jews in Bialystok, Russia

The House today gave immediate consideration to the pure food bill. Mr. Adamson, democrat, Georgia, opposed the bill on the ground that it interfered with State rights.

A stormy colloquy between Representative Bourke Cockran, of New York, and Sullivan, of Massachusetts, over the question of State rights, enlivened the discussion, Mr. Sullivan siding with the Georgia member that the States and not the nation, should control food manufactures, and pointed to the action of the State of New York in legislating to control insurance companies.

Mr. Cockran challenged the statement that laws of the New York legislature corrected the insurance evils. "They only confirm holds thieves have on the funds they have been looting," declared Mr. Cockran. "The thieves have advanced tools in their places. The tools do their work."

Officials of the Pennsylvania Railroad indignantly deny the published story that Francis I. Gowen is to retire from the company's service because of dissatisfaction with the way he has conducted the railroad coal investigation.

No additional information has been received.

No vote was taken in executive session of the Senate yesterday on the nomination of B. F. Barnes as postmaster of Washington. At the request of Mr. Tillman the vote was postponed to to-morrow. The House agreed with the Senate in omitting the construction of a monster battle ship this year, and after disagreeing to several other Senate amendments, thus overturning the naval committee, the naval bill was sent back to conference.

William Lee, alias George Scott, colored, the confessed assailant of Mrs. Robert G. Barnes and Miss Frances Powell, of Kingston, Somerset county, Md., is now locked up in the Baltimore jail, and it is probable that he will be tried there, as Sheriff G. W. Brown, who brought the prisoner to Baltimore, stated yesterday afternoon that to take Scott to Princess Ann for trial would mean a lynching, as the people there are determined to have him.

The French foreign office has been advised that China on Wednesday signed a treaty according complete satisfaction to France for the massacre of six French Jesuit missionaries at Nancharg, Kiang-Si province, in February last. China pays $200,000 indemnity to the missions and $400,000 indemnity to the deceased missionaries' families, builds a memorial hospital and punishes the ringleaders of the rioting. In addition, posthumous honors, which the people of Nanchang demanded, will not be granted to the Chinese magistrate whose suicide was the signal for the outbreak. The French gunboats in the vicinity of Nanchang will now be withdrawn.

The spirit of discord is breaking out in many parts of the Russian army, officers, in one or two cases, having been killed by their men. Two regiments at Sevastopol became mutinous, and it is feared the sailors there also are disaffected. The Bolschoff regiment at Ryason drove out its officers and burned the armory. Members of the Russian cabinet admitted in the lower house of the Douma yesterday that minor officials connived at the Jewish massacre at Bialystok. Agrarian troubles are spreading in the provinces of Tula, Orel and Kursk, and it is rumored ex-Procurator Pobiedonostseff has urged the Emperor to issue a manifesto to the peasants.

Later in the day Mr. Funk met another automobile, the occupant of which paid no heed to the signals. Mr. Funk thereupon drew his revolver and threatened to shoot the autoists. This brought them to a stop.

Go-Between Wins.

After one of the most sensational races ever seen upon the American turf Go-Between, a five-year-old gelding, by Meddler-Indigo, won the $20,000 Suburban Handicap (one mile and a quarter) over the Sheepshead Bay track yesterday afternoon by six inches. Probably the greatest stretch-runner in training, Go-Between, came from nowhere in the last quarter of a mile, and, struggling gamely under Shaw's whip, took the rich prize in the last jump from Dandelion, a four-year-old colt, by Hamburg-Pansy, who was similarly defeated in the Brooklyn Handicap. Two lengths away was the Meddler mare Colonial Girl, while, three lengths back, came Proper, Agile and Dolly Spanker, heads apart as named, with the others not far away, and Sidney Paget's Cairngorm, the most heavily backed horse in the race, a bitter disappointment. Dandelion and Cairngorm were equal favorites at 3 to 1, while Go-Between was steadily played at sixes. Colonial Girl, who was framed up for a killing, was backed down to 15, with a ton of money wagered on David Gideon's Astronomer.

When the horses turned into the stretch, having completed one mile, eight of them—Dandelion, Cederstrom, Colonial Girl, Go-Between, Agile, Cairngorm, Proper and Dolly Spanker—were racing like a troop of cavalry, neck and neck. Unable to pick the winner at that point, nearly 40,000 spectators were in an uproar. As this remarkable vanguard swept on Jockey Miller, wearing the green silk jacket of F. R. Hitchcock, drew away from the bunch with a short margin and looked the winner; but in a jiffy Go-Between, who had just begun to run, set sail after the Hamburg colt for a heart-breaking struggle all the way to the wire. Willie Shaw, the veteran jockey, put up the stronger finish, but he had a game horse under him, so that the combination carried the day

Cederstrom made the running for a mile, with Miller rating Dandelion in the place. Some were inclined to criticise Miller for putting Dandelion under a choking pull instead of allowing him to run free, but a majority of turfmen declared after the race that Miller had done his best under the circumstances, and that no horse in training could have defeated Go-Between.

Today's Telegraphic News

Crowning of Haakon VII.

Trondjhem, Norway, June 22.—King Haakon VII. was formally crowned King of Norway today in the Trondjhem Cathedral. No attempt was made to imitate the picturesque coronation ceremony of the old Viking kings. Everything was carried out with the utmost simplicity, in this respect resembling more closely the inauguration of an American President than a royal pageant.

Thousands of tourists from all parts of Europe have been flocking into the city during the last twenty-four hours, and this morning it was almost impossible to move through the streets, so dense was the throng.

Sweden refused to accept invitations for its representatives. The Swedish government informed the authorities at Christiana that its action must not be taken as in any way unfriendly to the new kingdom, but was dictated solely by the personal desire of King Oscar not to give his sanction to the coronation of his successor. This conduct of the Swedish government has caused rather hard feeling in Norway and will not be forgotten soon. The city was prettily decorated today with flags and bunting and artificial flowers, but the most striking part of the decorative scheme was that carried out by the warships in the harbor.

The procession to the church was very simple and not at all impressive. There were simply the king and queen, court officials and a small escort in the show.

The King and Queen left the Stiftsgaard, the royal residence, and the largest wooden building in Norway, and drove in a state carriage about a half mile long the Munke Garden to the cathedral.

The little street was densely packed with people who cheered enthusiastically as their majesties passed along.

There were five carriages in the procession. The first four, drawn by two horses each, contained officials. Then came the royal escort of cavalry, cadets, and after them rode the King and Queen in a four-horse coach of black and gold, surrounded by a golden crown.

The royal couple were escorted up the cathedral steps and entered the church to the strains of a coronation march especially composed by Ole Olsen, musical director of the Norwegian army.

The procession, headed by the bishops and priests, then the King and Queen, accompanied by their suites, including Chief Chamberlain Rustad, and the Queen's principal attendants, proceeded toward the altar. The ecclesiastics ascended the altar, while King Haakon and Queen Maud went to an elevated space under the main tower in the centre of the church, where their thrones had been placed in the midst of decorations of red velvet embroidered with gold.

As the King and Queen entered the church the congregation arose and remained standing until the royal pair reached the nave,

The coronation ceremony, which lasted one hour, then began. It was more like a religious service than a regal state affair.

After a coronation sermon by Bishop Bang, and the singing of several Norwegian hymns by the choir and congregation, King Haakon, accompanied by his aides, and preceded by the chief chamberlain and a standard bearer, who carried the state flag, walked to the altar, where Bishop Wexelsen annointed him on the forehead and wrists. The prayers in connection with this part of the ceremony were similar to those used in the coronation of King Oscar II, in 1872, although more simple state symbols were used.

Premier Michelsen and Bishop Wexelsen took the crown from the altar and placed it on Haakon's head; Foreign Minister Loveland handed him the sceptre, and Minister of Commerce Arctander presented the state orb General Gissen then presented a drawn sword to the King.

A special prayer was said in connection with the presentation of each article to Haakon.

Chief Justice Lochen placed the royal robe over the King's shoulders. The procession then reformed and Haakon wearing the crown, and carrying the sceptre in his right hand, and the orb in his left, walked slowly back to the throne in the centre of the church. The sword was handed back to War Minister Olssen. In this procession it was carried behind the King with the state banner.

The coronation of Queen Maud was then carried out with the same ceremony, with the exception of presenting a state sword to her. As the queen stepped from the altar her train was carried by cadets from the army and navy.

At the conclusion of this ceremony Herr Bender of the Storthing announced that the coronation had been successfully performed.

This evening King Haakon gives a banquet to 400 guests, including the special ambassadors to the coronation. Tomorrow afternoon a concert will be given in the National Theatre for the King's guest's and on Sunday there will be a childrens parade to the royal residence On Tuesday and Wednesday of next week there will be a series of banquets and receptions, and on Wednesday King Haakon will leave for Christiania. A royal hunting lodge costing $40,000 will be presented to the king as a coronation gift from the people of Norway.

The Southern Railway.

Birmingham, Ala., June 22.—A big shake-up will be made in the next week or two in the transportation department of the Southern Railway. The system will be divided into four districts instead of two, as at present, and an assistant general superintendent will be in charge of each. The present eastern district will be divided into two districts, and the western district will be divided into two. Following is the manner in which the system will be restricted:

First District—Washington, Danville, Richmond and Norfolk divisions. E. H. Copeman will be assistant general superintendent, the present title he holds on the eastern district.

Second District—Charlotte, Charleston, Savannah and Jacksonville divisions. J. N. Seale, superintendent of transportation, will be assistant general superinteudent.

Third District, Atlanta—Knoxville, Nashville and Asheville divisions; G. R. Loyall, superintendent of the Knoxville division, will be assistant general superintendent.

Fourth Division—Birmingham, Memphis and Mobile divisions; W. N. Foreacre, assistant general superintendent, will hold same office. Assistant Superintendent Harris, of the Knoxville division, recently transferred from the Birmingham division, will be made superintendent of the former division.

The change is made necessary by the constantly increasing territory of the Southern and the increasing business. Each assistant general superintendent will be able to get in closer touch with the shippers in his district and closer personal superintendency will be expected.

Will Take an Appeal.

New York, June 22.—Counsel for Mrs. Ellen B. Williams, who was declared insane by a decision of Justice Greenbaum, of the Supreme Court, will appeal from that decision and ask that the question be sent before a jury to determine as to the woman's sanity. Mrs. Williams claims that she is the widow of E. C. Winans, of Baltimore, Md., and that her share in his estate is being withheld from her. She is an English woman of good family and went to J. Pierpont Morgan with a letter of introduction from Lord Suffield. Mr. Morgan tried to straighten out the tangle, but it is said that the woman became abusive and threatened to shoot J. P. Morgan, jr. and Charles S. Steele, members of the banking firm of J. P. Morgan & Co. Mrs. Williams was arrested and pending an inquiry into her mental condition she consented to go to a sanitarium where her maintenance was paid for by the British consul general in New York. She was released from the sanitarium on a writ of habeas corpus before the decision declaring her insane had been handed down. She is now outside the jurisdiction of the court.

A Warning to Idlers.

Petersburg, Va., June 22.—In hearing an appealed vagrancy case from the Mayor's Court in Petersburg yesterday, Judge Mullen, of the Hustings Court, strongly commended the present rigid enforcement of the State vagrancy law, expressing the hope that the next legislature would make the penalty six months at hard labor. The city authorities are beginning to enforce the law much more strictly, with the result that already labor is becoming more available. Numbers of idle negroes and others without visible means of support are applying for employment.

Murderer Hanged

Chicago, June 22.—Richard Ivens was hanged at 11:04 this morning.

Before going to the gallows Ivens said: "Well, I was hoping that there would be one hanging day without any rain, but I guess I'm going to be disappointed. It is too bad that one cannot have a little sun the last few hours he has to live. I feel fine and dandy. That was a pretty good sleep I had. Gee, but I feel hungry; I feel like having some ham and eggs and coffee." A messenger was sent to a near by restaurant and after the meal Ivens was given the Holy Sacrament. Warden Whiteman denied that Ivens made any confession. Frequently Ivens leaped from his chair, nervously paced up and down the floor, and gazed out upon the crowd that was gathered in Dearborn avenue. "My, what a bunch of 'rubber necks' they are," remarked Ivens. "It must be great sport for them to see a person murdered for a crime he never committed." Ivens walked on the scaffold with steady step. He bravely stood the ordeal of having his legs and arms strapped. After the shroud and cap were adjusted the trap was hurriedly sprung. Ivens was pronounced dead at 11:15 He was taken down from the scaffold at 11:24 o'clock.

Richard G. Ivens aroused the entire city to retributive indignation by murdering Mrs. Bessie C. Hollister in a revolting manner. Mrs. Hollister, society and church woman, small, refined, was walking from a florist's to her home Friday, January 12, at dusk, when Ivens, drunk and brutal, a giant of strength, emerged from his father's carpenter shop, 1055 north Halstead street, and seized her arm. He insulted her and when she screamed and tried to wrest her arm free he placed a hand over her mouth, and dragged her into the shop. For hours the young woman was the victim of his will. He put her to physical torture before Ivens ended her cries by tying a piece of wire around her throat and twisting the ends with a pair of pliers until the larynx was crushed and death ensued. Next morning he pretended to discover the body and informed the police His arrest and confession followed. Ivens was a model Sunday school pupil. He was once awarded a Bible for attending church every Sunday for a year. He was indicted January 20, arraigned March 6, and tried the week thereafter. Franklin C. Hollister, husband of the murdered woman, is a wealthy employing printer. His brother, William Hollister, tried to shoot Ivens in the police station.

New York, June 22.—Considering the unexpected character of yesterday's market in the face of recent favorable developments, the opening fractional declines in prices were not regarded as important. Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give you One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O. Sold by Druggies, 75c.

Excitement on King Street.

Considerable excitement was caused on King street, near Washington, yesterday afternoon, by a row which took place at a fruit store conducted by a native of Greece. It seems that a boy had purchased fruit of the dealer which failed to give satisfaction, and he returned to the store with his father. A colloquy ensued between the dealer and the parties in which others participated and a row ensued. The Greek armed himself with a chair which he used on his adversaries. A crowd gathered and for a time it looked as though the trouble would end seriously. Officer Young had in the meantime hastened to the scene and he succeeded in quelling the disturbance. He took the dealer and two boys in charge. The case came before Justice Caton in the Police Court this morning when the Greek was fined $10 and the others $2.50 each.

Preparing for Paving.

The City Engineer has placed the pegs on Royal street, between King and Prince, preparatory to the paving of that square with vitrified brick.

The work of laying the concrete on Lee street, between King and Prince, is now in progress. It was supposed that all the property-owners on that square had either paid their quota or signified their intention to do so. This, however, is not a fact. About one-fourth of the square will not be improved, the owners of the property not deeming the improvement necessary.

YARMOUTH BLOATERS just received by J. C. MILBURN.

Alexandria Gazette.

FRIDAY EVENING, JUNE 22, 1906.

Plot to Assassinate the President.

In the Municipal Court at Portland, Oregon, yesterday afternoon Walter Sealasskiwicz, a Pole, who claims to have been invited to join what the government secret agents believe to be one of the most radical anarchistic societies in America, declared on the witness-stand that a plot was laid in Portland last month for the assassination of President Roosevelt. He further testified that funds were raised in that city for the purpose of sending John Przywara, a Russian nihilist, also a member of the society, to Washington city, to execute the murderous plot. The plans for the killing of the President miscarried, he said, because of internal dissensions which arose in the society. When trouble arose in the ranks of the red followers, he said, fear of exposure of the plot seized upon them and the plan was abandoned temporarily. His knowledge of the plot, he averred, led to the fight and his charges of assault and battery on which several of the alleged members of the society were arrested.

You cannot induce a lower animal to et heartily when not feeling well. A sick dog starves himself, and gets well. The stomach, once overworked, must have rest the same as your feet or eyes. You don't have to starve to rest your stomach. KODOL FOR DYPEPSIA takes up the work for your stomach, digests what you eat and gives it a rest. Puts it back in condition again. You can't feel good with disordered stomach. Try Kodol. Sold by W. F. Creighton & Co, 401 King street.

Ended Life's Troubles.

A long season of misfortune was brought to a tragic and pathetic end yesterday when John T. Winn threw himself from a ferryboat at New York and found death in the river. Pinned to the lapel of his coat, which he left behind on the ferryboat's deck, was a note in which Winn declared that his mind was gradually giving way under the strain of ill-luck. The note directed that the body when found be taken charge of by an undertaker whom he named, and added. "Bury it as soon as possible. Make sure it is dead and plant it at once." Winn was 40 years old and made his home with his brother. The brother said John was prosperous and happy a few years ago. His troubles began when his wife and child died within a few months of each other. Then he fell ill himself, his business failed and he was forced to seek work as a truck driver. His health was such that he was unable to work steadily, however, and worry brought on the condition of mind which led him to end his life.

To Save Some Portion of Your Earnings Each Week.

DECIDE on a definite plan and then persist on carrying it into effect. Every man and woman must DECIDE what he or she needs individually. The progress of men as individuals and as a race has come from MENTAL EFFORTS, from resolutions, from trying to do what they knew they ought to do. Have the strength of character to save. Get your money little by little, but steadily, deny yourself, economize, and as you save deposit it in our SAVINGS DEPARTMENT where it will earn 3 per cent. interest compounded. Notice to City Tax Payers.

Collector's Office, June 16, 1906.

Notice is hereby given that the tax-bills for 1906, are now in the hands of the collector. The attention of parties interested is respectfully called to the following extract from the revenue bill of this year:

"Upon all bills paid in full by the 1st day of July, 1906, the collector of taxes shall allow a discount of ten per cent., and on all bills paid by the 1st of September, 1906, he shall allow a discount of five per cent, and on all bills not paid by the first day of December, 1906, there shall be assessed and collected a penalty of five per cent upon the amount of said bills, and on all bills remaining unpaid on the 1st day of June, 1907, damages at the rate of six per centum per annum shall be paid."

Tax payers would do well to call and pay at once in order to avoid the rush and crowd usually present on the last days in which the discount is allowed.

Bring a list to make sure you get bills for all your property, as the collector will not be responsible or allow the discount after the time fixed by law.

P. F GORMAN,
je16 t jy1 Collector of Taxes.

TO THE OWNERS OF DOGS!

MAYOR'S OFFICE,
Alexandria, Va., June 8, 1906.

All persons owning or intending to keep any animal of the Dog or Canine species should come forward on or before

JUNE TWENTY-FIFTH, 1906,

and take out a license for the same from the Auditor. After the 30th of June all persons owning or harboring Dogs without the required license are subject to a fine as the laws on the subject require of $3 or $5.

Complaint has been frequently made that many persons fail to take out their license, and that others pay on one or two Dogs when owning and harboring more, or who send such Dogs away during the summer months and bring them back in the fall.

Attention has been called to this evasion of the law, and policemen will report all such cases, and fines can be imposed upon those who fail to take out licenses after trial in the Police Court.

The police officers will be required to report all violations of this law.

In order to avoid any mistakes persons who make application for licenses would do well to write their names and number of residence, street, etc., on a card or paper when making application for their licenses to the Auditor.

FRED. J. PAFF, Mayor.

The following is a copy of Section 54 of the license law. "On every dog, regardless of sex, one dollar and fifty cents."

YES,

We Probably Have It.

A good many people make the mistake of going to Washington to get something they could buy at home, do not look for it here, just jump to the conclusion that such things are not to be had in Alexandria.

We would like to state to those contemplating purchasing a fine watch, or diamond, or other fine piece of jewelry, clock, silverware, cut glass, etc., that we have a large and complete stock of the above mentioned goods and which we offer at a lower price than is asked for the same goods in Washington.
